

Doing your part to save lives on the road

FleetMode is a tool designed to help you avoid texting while driving.

Everyone has heard the startling statistics. **Distracted driving is the leading cause of automobile deaths.** Yet, we still use our phones while driving. You want other drivers on the road to avoid cell phone distractions; especially when your family is in the car. Lead by example and become part of the solution with FleetMode.

While Driving FleetMode Automatically:

- Silences phone alerts
- Auto-replies to text messages
- Sends calls to voicemail
- Disables phone keyboard
- Helps you become a more focused driver

FleetMode WILL NOT:

- Interfere with your work
- Block emergency calls

It's EASY! It's SAFE! & It can SAVE LIVES!
